

• PROFESSIONAL SUMMARY

Frontend & Web Developer with hands-on experience in building, modernizing, and deploying web applications, e-commerce stores, and dashboards. Specialized in React, Next.js, and TypeScript ecosystems integrated with Django / Python backends. Skilled in solving business challenges autonomously: from DB modeling and custom CMS admin panels to high-performance responsive interfaces (Lighthouse 95+) and search engine optimization (SEO).

• COMMERCIAL WORK EXPERIENCE

Lasertag & Airsoft Club "Berkut" [lasergame56.ru ↗](#) Contract2026 • 2 mos

Frontend / Fullstack Developer (Next.js, TypeScript, Tailwind CSS)

- Rebuilt the club's website from scratch using Next.js (App Router, SSR), TypeScript, and Tailwind CSS for peak speed and search visibility (Google, Yandex).
- Developed an interactive SaaS dashboard and management panel featuring real-time analytics, data visualization charts, and report generation.
- Optimized Core Web Vitals and SEO structure, ensuring instant loading and driving organic traffic growth from search engines.

Marketplace "Zapretny Plod" [z-plod.ru ↗](#) Contract2025 • 2 mos

Fullstack Developer (Python, Django, PostgreSQL, JavaScript, CSS3)

- Designed and built an e-commerce platform with product catalog, dynamic filtering, search, cart, and order placement workflow.
- Engineered a custom Django management panel allowing business administrators to quickly add, edit, and control product visibility in the storefront.
- Modeled relational PostgreSQL schemas and implemented role-based access control (buyer, seller, admin).

Tool Center "Master" [orentools.ru ↗](#) Contract2025 • 2 mos

Web Developer (Django, JavaScript, HTML5, CSS3)

- Executed complete modernization of the corporate tool catalog website under tight turnaround.
- Integrated a Django management system for autonomous inventory, pricing, and product updates by company staff.
- Achieved page load times under 1s (Lighthouse 95+), form validation, smooth interactive animations, and web analytics integration.

Dental Store "Orendent" Project2024–2025

Web Specialist & Content Manager

- Curated and structured specialized dental supplies catalog: product ingestion, data validation, and regular store inventory maintenance.

• FEATURED PROJECTS

freebie — E-commerce Platform [GitHub ↗](#)

React, Vite, TypeScript, Django REST API

SPA e-commerce platform with real-time cart state (React Context), Django REST Framework backend, promo code discounts, and product reviews.

Developer Portfolio [GitHub ↗](#)

Next.js, TypeScript, Tailwind CSS

Portfolio site focusing on Core Web Vitals, modular component architecture, custom interactive context menu, and clean typography.
